Program Yeterlilikleri/Program Outcomes
1. Have a broad understanding of economics with a deep exposure to other social sciences and mathematics.
2. Demonstrate knowledge and skills in understanding the interactions of different areas of economics.
3. Apply theoretical knowledge to solve complex problems and enhance decision-making capability.
4. Exhibit awareness and responsibility for the needs of the society and learn how to apply economic knowledge to address those needs.
5. Demonstrate scientific and ethical values at all stages of economic analysis: data collection, interpretation and dissemination of findings.
6. Demonstrate awareness of and responsibility for the needs of the society and learn how to apply economic knowledge to address those needs.
7. Use written and spoken English effectively (at least B2 level) to exchange scientific information.
8. Recognize mathematical and statistical techniques to analyze different economic systems.
9. Demonstrate computer proficiency in statistical tools and software to analyze and evaluate economic data.
10. Demonstrate teamwork, leadership, and entrepreneurial skills.
11. Display learning skills necessary for further study with a high degree of autonomy.
